

JOIN AN OAK GROVE DOCENT FOR A...

Pollinator Walk

What plants do native insects need?

Learn about native pollinators (bees, butterflies, moths, hummingbirds, bats and more) and how their survival (and ours) depends on native plants for pollen as well as nectar and food sources throughout the year. Easy walking trail, 45 - 60 minutes. This walk is family-friendly (please no pets) and free. \$6 per car (cash) park entry fee. Severe weather cancels

MARCH 15 & MAY 17, 2026

1PM-2PM
